The SOLE E95 elliptical trainer incorporates exercise with natural human movement, and is loaded with the best features of our residential models plus some fantastic upgrades. Fluid natural motion is ensured by four wheels gliding along dual rails and functions in both forward and reverse. The E95's power incline feature offers additional resistance and variable positions, allowing you to individually target major lower body muscle groups while the articulating handles provide upper body exercise for a total body workout. The E95 includes an integrated tablet holder. This allows you to use your smart devices to watch shows or follow your workout routines. Seamlessly listen to music through the Bluetooth 3.0 Audio Speakers from any enabled smart device. Also included is a USB port to charge your smart devices while working out.

## **E95** 20" ELLIPTICAL

- 20" stride length with 27 lb flywheel for smooth elliptical forward and reverse motion
- Power incline changes elliptical motion to target multiple muscle groups
